

HEATHROW 2.0

Our plan for sustainable growth

Heathrow

“Our long-term aspiration is to make growth from the new runway carbon neutral

Our aspiration also applies to ... the embodied carbon that would result from construction of our new runway.”

10

Zero Carbon Airport

A place that is run on renewable energy and delivers zero waste

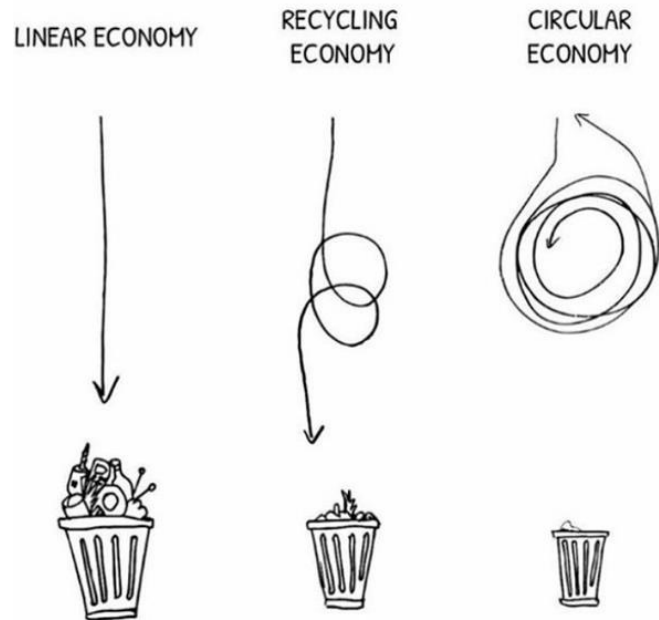

Can expansion be a fully electric construction site, powered by renewables?

10

Zero Carbon Airport

A place that is run on renewable energy and delivers zero waste

We are exploring the applications of a circular economy.

4

Respite for Residents

A place that's getting quieter

**How do we avoid waking
people up during night-time
construction?**

5

Quality Air, Locally

A place where local air quality improves

**How can we eliminate
construction-related road
traffic?**

6

Sustainable Communities

A place where local people shape their future

**How can we incorporate
wildlife into our construction?**

11

Accelerating the Era of Sustainable Growth

A place where innovators work together for carbon neutral growth

**How can we innovate to
maximise the
sustainability of the
construction process?**
